

FLORA

SEATING SYSTEM
OUTDOOR
design Ilenia Viscardi
2021

Flora is a system of single or double seating units that can be combined to produce free, unconventional and endless arrangements.

The structure is padded and the fabric cover, specifically for outdoor use, can be easily removed thanks to black zips that run along the edges of the seat and the backrest; a deliberately strong graphic sign that highlights the curvature. Optional removable 'cloak', in the same fabric cover or in a contrasting colour. It is fixed with Velcro in the central and lower parts of the seat and with a counterweight in the rear of the backrest.

A cover in waterproof and breathable polyester fabric allows the seating units to be kept in good conditions when not in use and it protects them from atmospheric agents and from the effects of sunlight.
